HELPING FAMILIES WITH SPECIAL NEEDS

EST. 2013

September 16, 2026

Dear Business Owner and Community Leader,

On Saturday, November 14, 2026, **Special Needs In My City (SNIMC)** will host our **8th Annual Health & Wellness Conference in Modesto**. As a nonprofit serving families of children and adults with developmental disabilities in Stanislaus County, we are committed to connecting families with practical education, trusted resources, and support.

This year's theme is "**From Awareness to Action: Mental Health Solutions for Every Family.**" Local medical and mental health professionals will share practical strategies to help families better understand and respond to the mental health needs of children and adults with developmental disabilities.

We would be grateful if you would consider supporting the conference at a sponsorship level that is meaningful and comfortable for your organization. One of our priorities this year is to provide Spanish interpretation throughout the conference so that more families and caregivers can fully participate and benefit from the information being shared.

Your sponsorship will help us make this education and support accessible to families who need it. Attached are our conference flyer, tentative agenda, and sponsorship opportunities for your review.

Thank you for considering an investment in families in our community. Your generosity helps us continue our mission of ensuring that children and adults with developmental disabilities are supported, valued, and advocated for.

Meena Tadimeti and Team SNIMC
